

Javascript - Environment setup

- Aditya Kumar
Chief Technology Officer, edwisor.com

We will start with the following concepts

- 1) Softwares/playgrounds we can use
- 2) Hello world program

You can code basic javascript programs using any of these methods

- Js Fiddle - <https://jsfiddle.net/>
- On a simple Html page, using script tag.
- any other online compiler of your choice

Let me show you these one by one.

Lets write our hello world program

It's a tradition which cannot or shouldn't be ignored!

The next steps are ...

- Best way to learn programming
